Hola

HOLA invites you on a journey through Mediterranean Spain. Some of the carefully selected Chardonnay and Pinot Noir grapes are grown just a few meters from the sea, while others are cultivated in the mountains above the sea for their unique acidity, after which they are fermented naturally in HOLA's own cellars in Barcelona. The unmistakable design of the bottle is inspired by the "panot de flor", the symbol of Barcelona, which can be found on numerous cobblestones in the metropolis and stands for the uniqueness of the city, but also of HOLA's sparkling wines.
